

## Dwell in the Mystery with other Experienced Directors

If you've been practicing spiritual direction for a while, you may find yourself wanting:

- More support from other directors,
- More spaciousness within your direction sessions
- More ways to evoke the directee's felt experience
- More engagement with new ideas
- More opportunities to appreciate what you've already learned by experience

To grow in your spiritual direction practice while learning to supervise other directors at the same time, this may be a time to refresh and discern. Join us for Together in the Mystery Supervisor Training
